

It's no secret that your smile is an important element in the impression you will give to strangers, friends, colleagues, employers and potential mates. An attractive smile is alluring. It is one of the most meaningful, aesthetic qualities we have. While not everyone was born with naturally beautiful teeth, today's modern cosmetic dentistry can allow anyone to attain a dazzling smile.

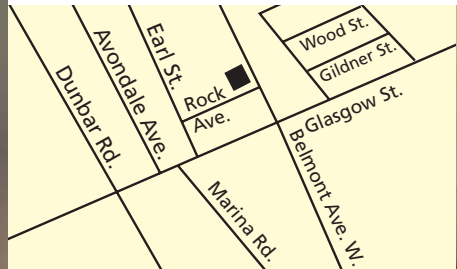

Smile With Confidence!

The Village Dental Centre

"With today's modern dentistry almost anything is possible in creating healthy beautiful looking smiles; patients are often amazed at the outcomes that can be achieved."
 – Dr. Oliver Pin-Harry

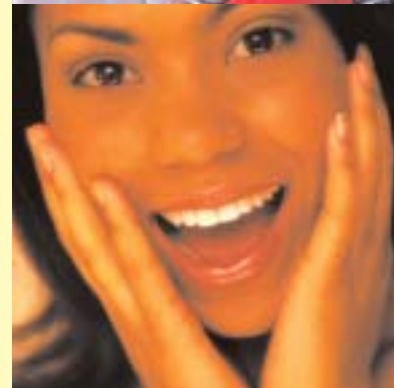

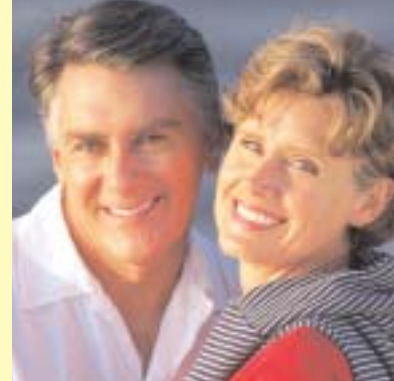

because a
Beautiful Smile
 attracts attention

WELCOME to The Village Dental Centre

We understand the importance of making people feel welcome and relaxed, and are dedicated to providing our patients with comfortable treatment in a warm, caring and professional environment.

Step into our office and you will enjoy a bright and welcoming facility as you are greeted and cared for by a team of friendly, experienced and committed dental health professionals.

We are currently welcoming new patients and invite you to join us or to refer any friends or family members who would appreciate our commitment to creating and maintaining beautiful and healthy smiles.

Welcome to The Village Dental Centre

Committed To Serving Your Needs

We try to make it easy for you to be an informed consumer. At your initial appointment, you will have the devoted attention of one of our doctors while we work to fully understand your needs, concerns, and desires.

Before you leave, you will have gained a thorough understanding of your dental health condition, our recommended treatments, and a detailed schedule of the time and costs required to complete your treatment.

Dental Care for Every Stage of Life

Lifelong Preventative Care to keep your smile healthy and prevent serious dental health problems

Reconstructive & Restorative Dentistry to correct problems related to the health and appearance of your teeth

Cosmetic Dentistry to give you the beautiful teeth and smile that you have always wanted

Dental Implants to permanently replace missing teeth and uncomfortable dentures
